BIENNIAL GOALS, INITIATIVES & OUTCOMES

2021/2022
every two years the Williamsburg City Council identifies new strategic initiatives for our city government. The Williamsburg City Council and staff are excited to present not only the 2021 / 2022 Goals, Initiatives, and Outcomes but a new vision statement for the first time in nearly 30 years.

This new vision statement is meant to carry us through the next two decades. It is our vision for the Williamsburg of 2040, and we will fulfill that vision with a strategic approach.

Goals, Initiatives, and Outcomes (GIOs) provide an expression of priorities, as specific and measurable as possible, and cover a two-year period. They are not intended to be a comprehensive list of all city services and activities. Instead, GIOs are a concrete, coordinated expression of the City Council’s direction and focus.
VISION STATEMENT

One Williamsburg that is courageously leading, innovating a modern city, prioritizing safety and wellness, engaging with our partners, while connecting with the world.

Utilize interdepartmental assets to provide youth counselors during the school year and to establish community policing practices that address truancy, academic failure, and crime prevention.
